EXPERIENCE

Solo Builder

Product Design & Engineering

Jan 2026 – Present

Built and launched [Foursight](#), a personal finance app for people who track their money manually.

Owned product strategy, UX, frontend engineering, backend engineering, deployment, & product marketing.

Dezerv

Sr. Product Designer

Feb 2025 – Dec 2025

Led end-to-end design of [Dezerv Web](#), translating the mobile-first product into the org's first desktop web experience for investors.

Introduced [Prosper](#), a design system that unifies design foundations across 3 investor products and 1 internal tool, creating a scalable foundation for future products.

Multiplier

Sr. Product Designer

May 2024 – Jan 2025

Worked on employee onboarding and invoicing experiences for full-time employees, contractors, and freelancers.

Career Break

Jul 2023 – Apr 2024

Sold most of my belongings and backpacked across 5+ countries, taking time away from full-time work.

Quizizz Inc.*

Sr. Product Designer

Jan 2021 – Jun 2023

**Quizizz is now called Wayground*

Contributed across core product, monetization, and growth. As the 2nd designer and 16th employee helped grow the team and establish its [Culture and Rituals](#).

Designed 9 new [Question Types](#) and mentored designers for 4 more, collaborating cross-functionally to increase revenue by 5%+.

Built and evolved [Chalkboard](#), Quizizz's design system in Figma, supporting 16 designers and 50+ engineers.

Product Designer

Jan 2019 – Dec 2020

Launched Quizizz Super, a new paid subscription tier, introducing new features and modes of instruction that generated \$1M in revenue in <2 months.
